Section V - FIRE FIGHTING MEASURES

FLASH POINT: NE
AUTOIGNITION TEMPERATURE: NE
FLAMMABILITY LIMITS IN AIR (% V): NE
EXTINGUISHING MEDIA: Use foam, carbon dioxide, dry chemical or water spray.
SPECIAL FIRE FIGHTING PROCEDURES: In case of fire, use normal fire fighting equipment including a NIOSH approved self-contained breathing apparatus and protective clothing. Wet soapy floors may be slippery. Use water to cool containers.
UNUSUAL FIRE & EXPLOSION HAZARDS: Material may be ignited only if preheated to high temperatures, for example, in a fire. Relative hazard is anticipated to be the same as typical combustible materials.

Section VI - ACCIDENTAL RELEASE MEASURES

SPILL ON LAND (LARGE SPILL): Eliminate sources of ignition. Prevent additional discharge of material, if possible to do so without risk. Minimize/avoid breathing of vapors. Minimize skin contact. Ventilate confined spaces. For small spills implement the following cleanup procedures: Prevent material from entering sewers, watercourses, or low areas. Contain spilled material with sand or earth. Do not use combustible materials such as sawdust. Observe precautions for volatile, combustible vapors from absorbed material. For large spills implement the preceding cleanup procedures and, if in public area, keep public away and advise authorities. Dispose of any leaking aerosols per site instructions after placing in safe fireproof containers with leaking material absorbed by earth or other non-flammable absorbent. Consult an expert on disposal of recovered material and ensure conformity to local disposal regulations. Dispose of in accordance with federal, state or local regulations.
SPILL ON WATER (LARGE SPILL): Eliminate sources of ignition. Warn occupants and shipping in surrounding and downwind areas of fire and explosion hazard and request all to stay clear. Remove from surface by skimming or scooping up floating material. Consult an expert on disposal of recovered material and ensure conformity to local disposal regulations. Dispose of in accordance with federal, state or local regulations.
SMALL SPILLS: Leaking containers should be placed in open containers, outdoors, away from any source of ignition, until all pressure has been released. Dispose of in accordance with federal, state or local regulations.

Section VII - STORAGE AND HANDLING

STORAGE TEMPERATURE: Ambient
STORAGE/TRANSPORT PRESSURE: Ambient
LOADING/UNLOADING TEMPERATURE: Ambient
STORAGE AND HANDLING: Keep container closed. Handle and open containers with care. Store in a cool, well ventilated place away from incompatible materials. DO NOT handle or store near an open flame, heat, or other source of ignition. DO NOT pressurize, cut, heat, or weld empty containers. DO NOT reuse containers.

Section VIII - EXPOSURE CONTROLS/PERSONAL PROTECTION

RESPIRATORY PROTECTION: None required. Normal ventilation adequate for recommended uses.
VENTILATION: Normal Ventilation adequate for recommended uses.
PROTECTIVE CLOTHING: Not necessary except as a good industrial practice.
