6.1 Spills:
Before cleaning any spill or leak, individuals involved in spill cleanup must wear appropriate Personal Protective Equipment.

For small spills (e.g., < 1 gallon (3,785 liters)) wear appropriate personal protective equipment (e.g., goggles, gloves). Remove spilled material with absorbent material and place into appropriate closed container(s) for disposal. Dispose of properly in accordance with local, state and federal regulations. Wash all affected areas and outside of container with plenty of warm water and soap. Remove any contaminated clothing and wash thoroughly before reuse.

For spills ≥ 1 gallon (3,785 liters), deny entry to all unprotected individuals. Maximize ventilation (open doors and windows). Dike and contain spill with inert material (e.g., sand or earth). Transfer spilled material to containers for recovery or disposal and solid cleaning material to separate containers for proper disposal. Remove contaminated clothing. Keep spills and cleaning runoffs out of municipal sewers and open bodies of water.
