Solid product: Acute and chronic health effects are not expected as long as good hygiene and safety precautions are followed.

Extremely hot or molten product:
Eye: Contact with extremely hot product will cause burns to the eyes.
Skin: Contact with extremely hot product may result in severe burns.
Ingestion: If swallowed in large quantities this material can obstruct the intestine.
Inhalation: No significant adverse effects are anticipated.

Section 4. First Aid Measures

First Aid for Eye: Flush with water for 15 minutes, including under eyelids. Seek medical attention if discomfort persists.

First Aid for Skin: For hot molten product cool skin with water or cold packs for at least 15 minutes. Do not put ice directly on the skin. Get medical help if discomfort persists.

First Aid for Inhalation: Remove to fresh air. Seek medical attention if discomfort persists.
Section 5. Fire Fighting Measures

Flash Point (°F/°C): Not applicable
Flammable Limit (vol%): Not applicable
Auto-ignition Temp. (vol%): None Established
Extinguisher Media: Carbon Dioxide, Foam, Water Fog and dry chemical
Fire Fighting Instructions: Wear protective clothing to prevent contact with skin and eyes. Do not release runoff from fire control methods to sewers or waterways.
Fire Fighting Equipment: Because fire may produce toxic thermal decomposition products, wear a self-contained breathing apparatus (SCBA) with a full face piece operated in pressure-demand or positive-pressure mode.

Section 6. Accidental Release Measures

Spill or Release Procedures: No special precautions necessary. Sweep up to avoid slipping hazard. If molten, allow to cool and scrape up.

Section 7. Handling and Storage

Handling: Observe precautions found on the label. Wash face and hands thoroughly with soap and water after handling and before eating, drinking or smoking. Avoid contamination. Use only with adequate ventilation.

Storage: Store in a cool, dry place away from heat, sparks, flame and direct sunlight. Store away from combustibles and incompatible materials.

Section 8. Exposure Controls / Personal Protective Equipment

Engineering Controls: Provide exhaust ventilation or other engineering controls to keep airborne concentrations of mists and/or vapors below the recommended exposure limits. An eye wash station and safety shower should be located near the work-station.

Personal Protective Equipment
Hand Protection: When handling product at elevated temperatures, use heat-resistant gloves. With product at ambient temperatures, use disposable nitrile, neoprene or butyl rubber gloves with repeated or prolonged use.
Eye Protection: Use a full-face shield and safety glasses if handling heated material. With product at ambient temperatures, use safety glasses equipped with side shields.

Body Protection: Prevent skin contact when handling heated material. Use insulated, heat-resistant clothing such as an apron or slicker suit.

Respiratory Protection: The need for respiratory protection is not anticipated under normal use conditions and with adequate ventilation. If elevated airborne concentrations above applicable workplace exposure levels are anticipated, a NIOSH approved organic vapor respirator equipped with a dust/mist prefilter should be use.

General Hygienic Practices: Avoid breathing dust, vapor or mist. Avoid contamination of food, beverages, or smoking materials. Wash thoroughly after handling, and before eating, drinking or smoking. Remove contaminated clothing promptly and clean thoroughly before reuse.
