Section 3 - Hazards Identification

Statement of Hazards: Caution: Causes eye and skin irritation. Combustible Liquid. Overexposure may cause headache.

Fire and Explosion Hazards: This product is water based and represents little or no fire hazard at room temperature. Elevated temperatures may generate combustible vapors, especially in enclosed spaces. Thermal decomposition products may include carbon monoxide, carbon dioxide.

Primary Route of Exposure: Skin and eye contact are the principal routes of exposure to this product.

Skin Contact - ACUTE Skin contact can cause irritation with possible redness. Severity of action is dependent on contact time.

Eye Contact - ACUTE Eye contact may cause moderate irritation.

Ingestion - ACUTE If swallowed, this product may cause irritation of mucosal linings of the mouth, throat, esophagus or stomach.

Carcinogenicity: IARC - No NTP - No OSHA - No ACGIH - No

Section 4 - First Aid Measures

Skin Contact: Immediately remove contaminated shoes and clothing. Wash skin with soap and plenty of water. Wash contaminated clothing before reuse. Get medical attention if irritation persists.

Eye Contact: Flush immediately with water and remove contact lenses, if applicable. Then flush with large quantities of running water for 15 minutes. Hold eyelids apart during flushing to ensure complete rinsing of entire surface of eye and lids with water. Get medical attention.

Ingestion: DO NOT induce vomiting. Rinse mouth with water. Then give 1-2 glasses of water or milk and call a physician or poison control center immediately. If vomiting occurs, keep head below hips to reduce risk of aspiration. Give water again. NEVER give anything by mouth to a person who is unconscious or convulsing. Get medical attention immediately.

Section 5 - Fire Fighting Measures

Flash Point (Method): 129º F (PMCC) Flammable Limits: Not determined. Fire and Explosion Hazards: None known.

Extinguishing Media: Use water spray, dry chemical, carbon dioxide or foam extinguishing agents unless contraindicated by surrounding environment.

Special Fire Fighting Procedures: Prevent human exposure to fire, smoke, fumes or products of combustion. Evacuate non-essential personnel from fire area. All ignition sources should be extinguished. Fire fighters should observe all precautions that apply to any fire where chemicals are stored. Keep containers cooled with water spray to prevent rupture from excess heat.

Hazardous Products: Thermal decomposition of this product may generate oxides of carbon.

---Section 6 - Accidental Release Measures---

Caution: If spilled, floors may be extremely slippery. Wear appropriate protective gear to avoid skin or eye contact. Extinguish all ignition sources. Contain spill with inert material (sand, clay). Transfer liquid and solids to separate containers for recovery or proper disposal. Keep spill out of storm sewers and open bodies of water. After removal, flush area with water. Follow good industrial hygiene practices. Wash thoroughly after clean-up. If uncertain about proper disposal, contact your local waste disposal provider or the regional office of the Environmental Protection Agency for guidance.

Section 7 - Handling and Storage

Handling: Avoid contact with skin or eyes. Avoid breathing vapor, spray or mist. Use product only according to label directions. If unsure about safe use, contact your supervisor immediately. Wash with soap and water after handling.

Storage: Store in original container in a cool, dry, well ventilated area away from sources of ignition. Store away from food or feed. Containers
should be kept tightly closed when not in use. Keep in an area inaccessible to small children.

Section 8 - Exposure Controls/Personal Protection

Personal Protective Equipment

Respiratory: Protection is not expected to be necessary under normal conditions of use. Where ventilation is inadequate, use appropriate respiratory protection to prevent over exposure. An approved dust/mist respirator would be recommended.

Gloves: Use water impervious gloves, such as latex or neoprene rubber.

Eye Protection: Chemical resistant goggles or face shield are recommended.

Other: Protective clothing (long sleeves, pants), eye wash, safety shower are always advisable when working with chemicals.

Ventilation: In applications where sprays or mists may be generated, proper ventilation in accordance with good industrial hygiene should be provided.

Section 10 - Stability and Reactivity

Stability: This product is stable at ambient temperatures and atmospheric pressures. It is not self-reactive and has a shelf life of at least one year under sealed conditions. Conditions to avoid are temperatures above 130°F or below 32°F. **Do not mix with other chemicals. Hazardous conditions may arise from improper mixing of chemicals.**

Hazardous Decomposition Products: Thermal decomposition may generate toxic materials such as oxides of carbon.

Dangerous Polymerization: Will not occur. Conditions to avoid: None

Dangerous Reactions: None known.

Section 11 - Toxicology Information

None

Section 12 - Ecology Information

None

Section 13 - Disposal Considerations

Waste Disposal: Material that cannot be used according to label direction and is destined for disposal should be disposed of in accordance with all applicable regulations. Empty containers should be triple rinsed and offered for recycling or reconditioning, or disposed of in a sanitary landfill or for small containers (1 gallon or less), may be wrapped and discarded in trash. Waste generators are required to evaluate all waste material to determine if it is hazardous by characteristics or listing for compliance with RCRA and any local disposal procedures and regulations. NOTE: State and local regulations may be more stringent than Federal regulations.

Transport Information

DOT: This product is not regulated.

Section 15 - Regulatory Information

Toxic Substances Control Act (TSCA): All components added to this product are listed on the U.S. EPA TSCA inventory.

SARA Title III

Section 313/312: This product is classified as an “immediate (acute) health hazard”.

Section 313: *Chemicals marked with an asterisk in Section Two are subject to the reporting requirements for Section 313 of Title III of the Superfund Amendments and Reauthorization Act (SARA) of 1986 and 40 CFR Part 372. However, if this product is for janitorial maintenance, it is exempted from this section, as stated in paragraph B.3.b Activity Exemptions of Form R instructions.

This product is hazardous by definition of the Hazard Communication Standard.
