4. First Aid Measures

First aid procedures

Eye contact
Do not rub eyes. Immediately flush with large amounts of clean, warm water (low pressure) for at least 15 minutes or until particles are removed. If irritation persists, consult a physician.
Skin contact: Wash affected areas thoroughly with mild soap and water. Get medical attention if irritation develops or persists.

Inhalation: Move person to fresh air immediately. If irritation persists, consult a physician.

Ingestion: Rinse mouth with water. Drink one to two glasses of water. If symptoms occur, consult a physician.

5. Fire Fighting Measures

Flammable properties: Like most organic material in powder form, toner can form explosive dust-air mixtures when finely dispersed in air.

Extinguishing media

Suitable extinguishing media: CO2, water, or dry chemical

Unsuitable extinguishing media: None known.

Protection of firefighters

Protective equipment and precautions for firefighters: If fire occurs in the printer, treat as an electrical fire.

Specific methods: None established.

Hazardous combustion products: Carbon monoxide and carbon dioxide.

6. Accidental Release Measures

Personal precautions: Minimize dust generation and accumulation.

Environmental precautions: Do not flush into surface water or sanitary sewer system. See also section 13 Disposal considerations.

Other information: Slowly vacuum or sweep the material into a bag or other sealed container. If a vacuum is used, the motor must be rated as dust explosion-proof. Clean remainder with a damp cloth or vacuum cleaner. Fine powder can form explosive dust-air mixtures. Dispose of in compliance with federal, state, and local regulations.

7. Handling and Storage

Handling: Keep out of the reach of children. Avoid inhalation of dust and contact with skin and eyes. Use with adequate ventilation. Keep away from excessive heat, sparks, and open flames.

Storage: Keep out of the reach of children. Keep tightly closed and dry. Store away from strong oxidizers. Store at room temperature.

8. Exposure Controls / Personal Protection

Exposure guidelines

USA OSHA (TWA/PEL): 15 mg/m3 (Total Dust), 5 mg/m3 (Respirable Fraction)

ACGIH (TWA/TLV): 10 mg/m3 (Inhalable Particulate), 3 mg/m3 (Respirable Particulate)

Engineering controls: Use in a well ventilated area.

Personal protective equipment

General: No personal respiratory protective equipment required under normal conditions of use.
