Financial Aid

The purpose of the Financial Aid Department is to provide financial aid to all eligible students using the guidelines of the U.S. Department of State of Texas and the policies of Lamar State College-Port Arthur. The Financial Aid Office provides personal advisement in all aspects of the process to assist students toward their educational goals. The office also plays a critical roll in the recruitment mission of the College and disseminates information to prospective students, their parents and the training and support extended to area high school counselors.

If you have any questions please call (409) 984-6203 or email financialaid@lamarpa.edu.

Unit 1. Know Your School's Value v

Unit 2. Maximize Your Financial Aid v

Unit 3. Cover the Gap v

Unit 4. Make School Count v

Unit 5. Get a Yearly Checkup v

Summary v

COLLEGE AND MONEY

You've probably heard this statement before: "College is an investment in your future."

But what does that mean, really? Well, it's a pretty simple equation. Is the money you'll earn - or the opportunities that will arise - because of your college degree be worth the money you paid for it? In this course, the Know! will give you some good info about maximizing the value you get from your college investment, while minimizing the costs. How do you get started? With this video.
