- Critical Care Nurse RT 120 .I5 C74 (stacks 1999-2005)
- Critical Care Nursing Quarterly RC 86 .C17 (stacks 1990-2005)

PERIODICAL DATABASES

Online information databases are large, regularly updated collections of digitized information -- including but not limited to abstracts and full text articles from journals and newspapers, conference proceedings and submitted papers, dissertations, government reports, essays, book chapters, web pages, etc. The content is created by publishers who release print versions, then lease the rights to their information to database vendors. Database records are easy to search and retrieve because the
content of each record has been analyzed and assigned appropriate subject headings, keywords, names, etc. New records are regularly downloaded from the producer of each database. Gates Memorial Library Databases

- Academic Search Complete
- AcademicIndex.net
- Alt HealthWatch
- CINAHL
- Health Reference Center Academic
- Health Source: Consumer Edition
- Health Source: Nursing/Academic
