HEALTH HAZARD DATA

This product has not been tested as a whole to determine its specific health hazards. The information provided in this section is based on health hazard information on the product components.

Carcinogenicity: NTP: No	IARC Monographs: No	OSHA Regulated: No
Occupational Exposure Limits:	See <u>COMPOSITION</u> section.	

Effects of Overexposure:**Acute:**

Eyes:	An irritant, based on health hazard data of components.
Skin:	The primary hazard associated with use of grease is its accidental injection under the skin with a high pressure gun. If injected under the skin, necrosis could occur.
Inhalation:	Due to the low vapor pressure of this product under ambient conditions, inhalation is not normally a problem.
Ingestion:	Ingestion hazards include possible irritation, nausea, or diarrhea.

Chronic: Frequent or prolonged contact may cause skin irritation.

Additional Medical and Toxicological Information: May aggravate pre-existing dermatitis.

EMERGENCY FIRST AID PROCEDURES

Eye Contact: Flush thoroughly with water for at least 15 minutes, occasionally lifting the lower and upper lids. Get medical attention if redness or irritation occurs.

Skin Contact: Remove contaminated clothing. Wash affected areas with soap and water. If irritation occurs, get medical attention.

Inhalation: Remove to fresh air. Apply artificial respiration if not breathing. Get medical attention.

Ingestion: Do not induce vomiting. If spontaneous vomiting occurs hold the victim's head lower than hips to prevent aspiration.

SPECIAL PROTECTION INFORMATION

Eye Protection: Remove contact lenses and wear chemical safety goggles, safety glasses, or face shield where contact with the product or mist may occur.

Skin Protection: Wear impervious gloves such as nitrile or neoprene or other materials resistant to petroleum oils when contact with skin may occur.

Inhalation: Use approved respiratory protective equipment for situations where exposure to mist may exceed occupational exposure levels.

Ventilation: Provide adequate ventilation to keep mist or vapors below occupational exposure levels, if applicable.

SPILL OR LEAK AND DISPOSAL PROCEDURES

Spill Procedures: Remove sources of heat or ignition, including internal combustion engines and power tools. Remove spilled material and place in containers for disposal. Use approved respirator where occupational exposure limits for oil mist may be exceeded.

Waste Disposal: Dispose through a licensed waste disposal company. Follow federal, state and local regulations.

SPECIAL PRECAUTIONS AND COMMENTS

Storage Requirements: Store in tightly closed containers in a dry, cool place, away from sources of heat, ignition or strong oxidizers. Ground and bond all transfer and storage equipment.
